

Exeter Community Transport Association

The Greater Exeter Access Project is a facility which offers access to parts of the city via our recently - purchased Tramper vehicle. Areas that were difficult to reach for the mobility - challenged are now within the Tramper's scope. Some of these areas include but are not limited to The Quay, Pennsylvania and Topsham.

This service is for the use of all individuals (once registered and trained) who are suffering from mobility problems whether they are temporary or permanent.

Cost of hire for the Tramper will be £6 for up to three hours or £10 for up to six hours.

The Greater Exeter Access Project

We are Driven by your donations

The Trampler is a great way to get around Exeter and surrounding areas - up to 30 miles can be reached depending on terrain.

For more accessible Areas please visit www.countrysidemobility.org/

Some of the accessible areas around Exeter are:-

Exeter Quay, Exe Bridge Retail Park, Cricklepit Mill, Custom House, Marsh Barton, The House That Moved West Street in the West Quarter, University of Exeter, Northcott Theatre, Medieval Exe Bridge, Double Locks, Topsham and many more.
