## Greater Exeter Access Project

**After a successful launch on Monday 9th January attended by Project users, Funders and Councillors. Service User Chris Norton took the Trampler out for its maiden voyage!**

**Picture above is Chris outside The Waterfront on Exeter Quayside and he went on to enjoy the rest of the Quay's beautiful scenery.**

# Where can the Trampler go ?

Some of the accessible areas around Exeter are:-

Exeter Quay, Exe Bridge Retail Park, Cricklepit Mill, Custom House, Marsh Barton, The House That Moved West Street in the West Quarter, University of Exeter, Northcott Theatre, Medieval Exe Bridge, Double Locks, Topsham and many more.

The furthest our Trampler has travelled so far is The Double Locks, on Exeter's canal. Following on from this the Trampler took Redhills in its stride on a trip to the Royal Oak in Nadderwater.

# Meet The Staff.

Hello!

My name is Janine Warre and I am ECTA's Finance Officer. I am usually hidden away in the back office dealing with all the various financial ins and outs of our busy charity.

My background is in Business Finance, especially in the Building and Construction sector, so that when I joined ECTA approximately 18 months ago it was a refreshing change to look at finance from a different angle: to use limited resources in the most efficient way possible to support all the staff, volunteers and users. I really enjoy working alongside our dedicated staff, volunteers and trustees and meeting our users. I spend much of my time helping our Manager raise funds for ECTA from the many private trusts and grant-giving bodies who so generously support charities and voluntary bodies in these difficult times. Looking after the finances of Shop4ECTA is also very rewarding, sorting out Gift Aid and the general finances of the Charity Shop.

My interests are varied: walking and hiking, history and archaeology, reading, writing, amateur dramatics, and I am always busy visiting my four grown-up children who live in various parts of the UK and the world!
